(Chicken or Vegetable)

Sweet and Sour Pork/Chicken R35

Dumplings R25 for 5

ICE CREAM

Han-Made Dark Chocolate and Citrus with beer R38

GIN

Flowstone Gin is born and bred in the Cradle of Humankind – an oasis of pristine indigenous African Bushveld. Our gins have a unique positioning tied to our Cradle of Humankind origins, our use of Bushveld botanicals, and our three unique gins.

BUSHWILLOW

The alcohol is soft and smooth. The flavours are nutty, earthy and woody. After a few seconds Bushwillow floods the mouth with a unique and distinctive mouth-enveloping warmth that invites repeated tastings.

WILD CUCUMBER

On first impressions there is a green astringency on the side of the tongue followed by clear cucumber over the top of the tongue. The overall impression is a fresh, green, complex pallet complemented by floral notes.

MARULA

A smooth, soft alcohol allows the Marula nose to shine. A floral complexity rounds out the fruitiness. Florals come from *Dombeya rotundifolia*, the beautiful wild pear that flowers profusely but briefly in early spring, *Buddleja salvifolia* and *Acacia caffra*, the generous, sweetly scented Sweet-thorn acacia. Grains of Paradise and cumin provide a spice body.
