

## GROUP COMMUNITY & STAKEHOLDER ENGAGEMENT POLICY

Sun International is an internationally recognised gaming and hospitality group that believes in engaging and empowering the communities within its surrounding operational areas. As a responsible corporate citizen we understand the necessity of empowering communities in South Africa and therefore, Community and Stakeholder Engagement (C&SE) forms a key component of the group's sustainable business strategy.

As a group we recognise that we have an obligation to our stakeholders to ensure that C&SE forms an integral part of our business strategy which assists in ensuring that the environment in which we operate is not only conducive to business but also allows for our business to thrive together with our communities and stakeholders at large. Sun International aims to achieve its C&SE objectives and its shared-value obligations by ensuring that we:

- transparently and inclusively engage with the communities and stakeholders with whom we interact and deal with in our operational areas on a regular basis;
- through our mutually beneficial and sustainable partnerships continue to build and improve relationships with surrounding communities within the areas we operate;
- continue to enhance the group's reputation as a responsible and caring corporate citizen; and
- demonstrate responsible behavior in terms of C&SE and corporate social investment through:
  - clearly defined engagement processes and procedures by which the group will identify, allocate and manage its sustainable community empowerment initiatives;
  - focusing its funding, first and foremost on those communities that are directly involved and impacted by the group's operations;
  - approaching all community empowerment initiatives in a consultative manner through our C&SE processes and where possible facilitate sustainable self-sufficiency in communities;
  - attracting and developing social, environmental and economically responsible and qualified entrepreneurs, suppliers, contractors and concessionaires;
  - measuring the effectiveness and sustainability of our SED projects and partnerships against the group's transformation and investment targets as stipulated by the applicable B-BBEE framework and the Gaming Boards' social development requirements; and
  - providing feedback and progress reports on SED and C&SE initiatives to Sun International's Sustainability, Risk and Social and Ethics Committees.

**Sun International's Community & Stakeholder Engagement Policy is aligned to the group's business strategy and demonstrates our commitment to transparent and inclusive engagements that build sustainable partnerships with communities and stakeholders directly and indirectly affected by our operations.**
